My musical journey began in Kindermusik class when I was a year old. At five, I began taking piano lessons and learning to read music. At age 10, I started vocal lessons and participating in musical theater productions. In the fifth grade my passion for singing and performing as a solo artist blossomed. Unfortunately, in November 2015, I was diagnosed with a very rare and aggressive sarcoma cancer. My life quickly changed from school and music to fighting for survival. Early in treatment, I was gifted a ukulele that allowed me to focus on playing music even in the hospital, using singing and song writing to keep me uplifted. Now at 16, I am a “cancer-thriver”. My original song lyrics have been dramatically influenced by my experience in and out of treatment. Today, I am grateful to have a healthy and active typical teen life. I dedicate my free time to creating and playing music and performing for causes close to my heart. My passion is to continue growing as a musician, songwriter and performer.

BRAND

In December 2017, I officially launched the Sage Escalante Music brand. The swallow in my logo honors the San Juan Capistrano Mission Swallow and my love of music. This special bird and the meaning behind it has been an important symbol of strength and perseverance during my journey with cancer and now as a singer, musician and performer.
